**Programmer Analyst**

**Mobile: (+91) 8270607898**  
**Email: [narmadha.gs01@gmail.com](mailto:narmadha.gs01@gmail.com)**

Software Engineer with **4-year ands-on** experience in a **manual testing and in automation testing**. Easily collaborate with developers and project managers to accomplish milestones. Solid history of discovering errors, resolving defects, and ensuring client expectations are met with high-quality software solutions.

## Work Experience

---

<b>Cognizant Technology, Chennai - Programmer Analyst</b>	<b>2022 March– Present</b>
<b>Kloudone Technology, Chennai - Software Engineer</b>	<b>2020 January– 2022 March</b>

## Key Skills

---

Test cases, plan and scripts	Integration Testing	Selenium WebDriver
Defect and Bug Discovery	Regression Testing	Load Testing
Technical Specification Analysis	Smoke Testing	Performance Testing
Issue identification and Documentation	UAT	Android Testing
Tracking, logging and reporting	Sanity Testing	Cucumber Framework

## Technology Summary

---

**Tools and Technologies** – Selenium WebDriver, Cucumber Framework, Postman, JMeter, Splunk, Grafana, Jenkins, JIRA, REST Assured

**Programming Languages** - Java

**Platform** – Linux/Ubuntu and Windows

**Version Control** – GIT

**Methodology** – Agile/Scrum

## Experience:

---

<b>DNB (Gateway)</b>	<b>2022 March to Present</b>
----------------------	------------------------------

**Testing Role: Automation Testing (Cucumber Framework), performance Testing (JMeter), Postman, Functional Testing**

- Around 1 year of experience in Automation Testing using Cucumber Framework.
- Extensively involved in Functional Testing, Automation Testing, Performance Testing
- Experience in Design, development and executing Test Cases.

- Detecting bugs & classifying them based on severity, priority in JIRA.
- Experience in development and executing the automation scripts.
- Experience in performance Testing using JMeter.

## **Kloudlearn (LMS Product)**

**2020 Aug to 2022 Mar**

### **Testing Role: Automation Testing (Selenium WebDriver, Rest Assured), Load Testing (Apache Benchmark), Postman, Manual Testing**

- Around 17 months of experience in Automation Testing using Selenium Web driver.
- Extensively involved in Manual Testing, Automation Testing, Load Testing and API Testing (REST Assured)
- Done poc to visualize the Selenium logs in Grafana dashboard. And it helped team to verify the logs in dashboard.
- Extensive experience in Web application functional testing and android application testing.
- Experience in Designing and executing the automation scripts using Selenium.
- Experience in Design, development and executing Test Cases.
- Involved in cross browsing testing of the application on various browsers to ensure its function.
- Detecting bugs & classifying them based on severity, priority in JIRA.
- Experience in development and executing the automation scripts using Rest Assured

## **SEP - ICDM (PSR Project)**

**2020 May to 2020 Aug**

### **Testing Role: (Performance Testing, Scalability Testing, Reliability Testing)**

- Monitoring the performance of the Symantec application.
- Analyzing the test report and provide test report to client.
- Analyzing the test cases and raising the bug.
- Assigning Bugs severity correctly in JIRA so that the bugs are fixed from the developer on time.

## **Education**

---

**Adhiparasakthi college of Engineering / B.E(ECE)**

August 2015 - May 2019,

Percentage – 70 %
